

Family Photo Session List

This list is intended to be a guideline. Every session is unique and you may or may not all of the members listed below. Use this list to create your own photo list using the names of family members. You can bring that list to the session or send over a photo of it prior so that we make sure not to forget anything!

Are there any SPECIFIC images that you would like to capture? Sometimes there are pets or belongings or traditions that families would like captured. Please make sure to let me know ahead of time so that we can plan ahead!

This is an inclusive list of just about every combination for family photos. We can always do multiples of specific groupings. (For example, if you would like more than one photo of siblings together, or more than one couples photo of mom and dad.)
